

Information from the Provisional Administrator of **Mopac modern packaging AG** to the Creditors and the Media

Encouraging development for Mopac modern packaging AG: ongoing full order books and new financing

Bern, 23 April 2015. With approval of the provisional administrator, Dr. Fritz Rothenbühler, Mopac modern packaging AG ("Mopac"), which is in provisional debt restructuring moratorium since 30 March 2015, has concluded a new credit contract with its bank. This allows Mopac to continue its business activities normally under the supervision of the provisional administrator and, also in the light of the current exchange rate situation, to rapidly implement the necessary restructuring and optimization measures.

The order situation of Mopac has continued to develop well. The production lines in Wasen as well as in Eriswil are currently working at full capacity. The provision of raw material and the supply of clients are ensured.
