

Information from the Administrator of **Mopac modern packaging AG** to the Creditors and Media

Staff reduction at MOPAC less important than announced

Bern, 28 October 2015

At the beginning of October 2015, Mopac modern packaging AG ("Mopac") had announced, for reasons of precaution, a consultation procedure for the dismissal of a maximum of 80 employees. Mopac has now decided a dismissal of 33 persons in October.

In order to be able to react to the exchange rate-related sales decline in export trade to the EU zone, these redundancies have become inevitable.

Accompanying measures have been immediately prepared in close collaboration with the public employment service of the Canton Bern. The dismissed employees are offered outplacement support. Moreover, different companies of the region show interest in a recruiting of dismissed employees.
